

CHURCH URGED TO AID INDUSTRIAL JUSTICE

Bishop Gardner Moves for Firm Stand on Rights of the Workers.

FOUR NEW BISHOPS NAMED

Deputies Adopt Resolution to Raise \$3,500,000 for Pensioning Clergy.

One of the features of the present convention of the Protestant Episcopal Church has been the number of social service meetings. Into almost every topic that has been discussed the idea of broadening the sympathies of the church with particular reference to the poor, the oppressed and the defective has been injected. The church social service league has been holding soap box meetings in front of New School Hall during recesses and the meetings have been largely attended. Bishop Spalding has driven home to members of the bishops and deputies his ideas of a new industrial order into which the church must enter if it is to retain the support of the poorer classes. For these reasons a resolution introduced yesterday morning by Bishop Gardner of Rhode Island and referred to the committee on social service attracted much interest. This is the resolution:

Whereas the moral and spiritual welfare of the people demand that the highest possible standard of living should everywhere be maintained; and that all conduct of industry should emphasize the search for such higher and more humane forms and organizations as will genuinely secure the personal initiative and self-respect of the workman, and give him a definite personal stake in the system of production to which his life is given; and

Whereas the most disproportionate inequality and glaring misfortune are necessarily the result of the present industrial system, and the general welfare of the people is thereby imperiled; and whereas the church is called upon to take part in the solution of these problems; and whereas the church is called upon to take part in the solution of these problems; and whereas the church is called upon to take part in the solution of these problems;

Resolved, That the House of Bishops concurring, that we, the members of the general convention of the Protestant Episcopal church, do hereby affirm that the church stands for social justice and that it demands the achievement of a social order in which there shall be a more equitable distribution of wealth, in which the social causes of poverty and the gross waste of the present order shall be eliminated, and in which every worker shall have a just return for that which he produces, a free opportunity for self-development and a fair share in all the gains of progress. And since such a social order can only be achieved progressively, by the efforts of men and women who in the spirit of Christ put the common welfare above private gain, the church calls upon every communicant, clerical and lay, to strive to take part and to share the complex conditions under which we are called upon to live, and so to act that the present order, under the influence of the church, may be replaced by a new order, in which the social causes of poverty and the gross waste of the present order shall be eliminated, and in which every worker shall have a just return for that which he produces, a free opportunity for self-development and a fair share in all the gains of progress.

Four New Bishops Named.

The House of Bishops elected four new bishops yesterday to fill vacancies in the missionary field left by death, resignation or transfer. Two New York clergymen are among the four. A fifth vacancy was not filled.

The Rev. Dr. Milo H. Gates, who has just expressed the completion of the chapel of the Intercession at Broadway and 127th street, of which he is vicar, was made bishop of Cuba. The vacancy there was made through the resignation of Bishop Alton W. Knight to the University of the South at Sewanee, Tenn., where he will be the vice-chancellor.

The Rev. Dr. Hugh Burleson, secretary of the church Board of Missions, who has headquarters in this city, becomes bishop of the missionary district of North Dakota. Dr. Burleson is now confined in St. Luke's Hospital, having fallen and broken his knee on the opening day of the convention. His father was a missionary and he has three brothers who are doing missionary work now in the Northwest. Dr. Burleson is the editor of the *Spirit of Missions*. He will take the place of Bishop Cameron Mann, who goes to southern Florida, where a vacancy was created by the resignation of Bishop William Crane Gray.

The Rev. Dr. W. B. Gates, now principal of Columbia Institute at Columbia, Tenn., becomes bishop of Spokane, taking the place of Bishop Lemuel H. Wells, who resigned because of old age.

The Rev. Dr. F. B. Howden, rector of St. John's Protestant Episcopal Church at Georgetown, D. C., was elected bishop of New Mexico. The vacancy there was caused by the death of Bishop Kendrick. Another vacancy exists in the missionary district of Porto Rico through the resignation of Bishop James H. Van Buren, who retired about a year ago. It is understood the House of Bishops left this vacancy unfilled in order to permit further search for a man thoroughly familiar with the Spanish language.

These elections will be sent to the House of Deputies this morning for confirmation. It is unusual for the deputies to reject any one elected by the House of Bishops.

Want Millions for Pensions.

During the entire business session yesterday morning the House of Deputies concerned itself with the preliminary report of a joint commission which for three years has been working out a scheme for pensioning Episcopal clergymen. The Rev. Dr. James McIlvaine of Pittsburgh presented the report of the commission and explained its general features. Monell Saxre, a pension expert and the secretary of the commission, then took the floor and submitted to questions on the details of the proposed scheme. The major features of the plan are the raising of a lump sum of \$5,500,000 and the upkeep of a fund by annual assessments that will amount to \$200,000. It is proposed that contributions to this continuing fund shall be made by the parishes on a graduated scale and that the pensions shall also be graduated so that the rectors of the larger parishes shall receive the larger pensions. These pensions run from a minimum of \$500 a year to \$2,000 a year, and clergymen become eligible at the age of 60. Dr. Manning and Dr. Paris of New York, both of whom have large and wealthy parishes, said they believed the sentiment of the more fortunate clergy was for a uniform pension. The resolution finally adopted provided among other things:

"That the principle of distribution should be so arranged that the maximum pension should not exceed \$2,000 per annum and that the minimum limit should be \$500 per annum. Another business proposition which was considered by the House of Deputies was a resolution introduced by Robert C. Pruyn of Albany in respect of more efficient methods in the management of the church. He suggested that experts, whose expense should be met by private subscription, should be employed to audit the parish books of the church everywhere. His resolution that a commission be considered this plan by the House of Bishops was adopted unanimously. The commission will report at the next general convention. The programme for church unity received another boost yesterday through the introduction of a resolution by the Rev. Dr. James E. Freeman of Minnesota calling for a nationwide campaign of preaching. He

Keep Your Car Young!

WHY is it that a good automobile is comparatively so short-lived? A year or two and it has seen its best days. The answer is, Friction. No piece of machinery needs such diverse lubrication as the automobile. Oil and grease are good as far as they go. But they have not kept pace with mechanics. Graphite has been known for years to be one of the most satisfactory of lubricants. The Joseph Dixon Crucible Company produce a form of flake graphite that successfully meets the severe requirements of automobile lubrication. This peculiar form of flake graphite is the only graphite that will successfully meet automobile conditions. This flake has a thinness and flatness and flexibility and toughness that make it ideal for automobile bearings. It fills in the pores and forms a smooth, oily veneer over the entire bearing surface, reducing friction to the absolute minimum known to mechanics, for the obvious reason that it gives graphite-to-graphite contact instead of metal-to-metal.

DIXON'S GRAPHITE Automobile Lubricants

Cars in which Dixon's Graphite Automobile Lubricants are used, keep in perfect condition indefinitely. A Dixon graphited bearing is a safe bearing. It never overheats nor burns out to cause an accident. We invite you to get acquainted with Dixon's Graphite Automobile Lubricants through a try-out of Dixon's Transmission and Differential Grease No. 677. Once you realize the difference this grease makes in the easy running of your car, you will buy the Dixon's graphite grease specially prepared for each part of your machine. Sold by dealers who are in business to sell real service.

Made in JERSEY CITY, N. J., by the Joseph Dixon Crucible Co. Established in 1827

convention is called upon to express its willingness to undertake this preaching mission and to include in its scope the church at large. The resolution calls for a joint commission of four bishops, four clergymen and four laymen to arrange a programme and to carry it into effect at the earliest possible moment. It was placed on the calendar for further discussion. Yesterday the House of Deputies met the House of Bishops held sessions yesterday afternoon because of the joint session of the cathedral for the discussion of the church's needs in the island world over which the United States exercises either jurisdiction or a far reaching influence. As on all other occasions of this
